### LITERARY FACTOID!

What is the difference between a bookworm and a bibliophile?

**Bibliophiles** love the book: the look, the feel, the smell, and the history as much as the the content and collect them for their aesthetics, whereas a **bookworm** is more interested in the content and collects the books because they loved the story.

---

## Library BOOKSHOP!

Always a great place to buy books, etc.  
It is the *only* book shop in Arnold

The Friends of the Arnold Library Bookshop, located inside the library, continues its book sales with books, puzzles, CDs, and DVDs all year. We add new books into the library shop every couple of days, so the selection will be new every time you come in.

Books make great gifts—for yourself or others!
